Helping the Student with Diabetes Succeed: A Guide for School Personnel

About the School Guide:
The purpose of this comprehensive online resource is to empower students with diabetes, their health care team, school staff, and parents/guardians to work together to provide optimal diabetes management in the school setting.

What’s New? Updated Information on:

- Effective diabetes management for children with type 2 diabetes;
- Diabetes equipment and supplies for blood glucose monitoring and administering insulin;
- Meal planning and carbohydrate counting;
- Psychosocial issues affecting students with diabetes.
