

IN 2007, **DIABETES** STOLE  
\$174 BILLION DOLLARS  
FROM AMERICA.

NOW **THAT'S** A STICK UP!

In 2007, the total estimated cost of diabetes in the United States was \$174 billion in terms of direct medical expenditures and lost productivity. Diabetes is more than a major health crisis - it's a legitimate national threat to America's economy. This year, stop a thief red handed - support diabetes research for a cure and fund education and prevention programs.

WHAT **DIABETES** IS STEALING  
FROM AMERICA IS A CRIME.
